Keg River Ice Melters

ICE Melter

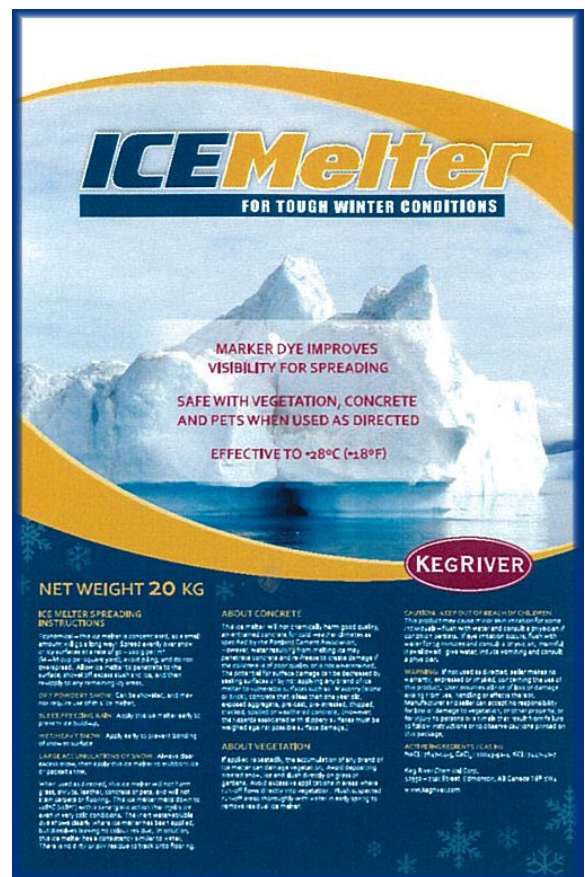

FOR TOUGH WINTER CONDITIONS

Keg River Ice Melter:

- Our latest premium blend: Effective to -28°C
- Contains Calcium Chloride – the best Ice Melter ingredient – best combination of speed and duration in ice melting.
- Generates heat and brine quickly for a synergistic effect to make other ingredients perform better and improves effective temperature of Keg River Ice melter to -28°C .
- Safe to use: Calcium Chloride is used extensively in the environment by highways departments for de-icing and dust control (gravel roads); is used as fertilizer in agriculture, and as a food additive – a safe and proven ingredient.
- Environmentally inert Blue marker shows where product is applied and reduces incidence of over-application. Dye is water-soluble and UV sensitive – leaves no colour residue.

Safe to use Ice Melter

- Keg River Ice Melter will not harm vegetation, properly air-entrained concrete or pets when used as directed. Beware of ice melter brands that claim complete safety to plants. Any Ice Melter can harm plants with over application.
